DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-53, drawn to creating uniform meta-data, classified in class 715, subclass 523.
 - II. Claims 54-91, drawn to linking personal metadata, classified in class 715, subclass 501.1.
 - III. Claims 92-95, 150-11, and 115-117, drawn to a method of communicating metadata between users of a multimedia browsing service, classified in class 709, subclass 205.
 - IV. Claims 96-10 and 112-114, drawn to a method of communicating metadata between a user device and an external device using a logon to the multimedia browsing system, classified in class 709, subclass 229.
 - V. Claims 118-132, drawn to a method of transferring a media session from a first device to a second device, classified in class 709, subclass 227.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions III-V are distinct from each other and Groups I-II from the reasons listed in the paragraph 2 of the Restriction Requirement dated 1/26/2005.
3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be

Art Unit: 2179

separately usable. In the instant case, invention I has separate utility such as creating uniform meta data in any other type of database. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Adam M Queler whose telephone number is (571) 272-4140. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Heather R Herndon can be reached on (571) 272-4136. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
